

Total cost of liquid fuels depending on the proportion of blended synthetic fuel (including distribution costs) – costs of synthetic liquid fuels given for the import option “PV from North Africa” (ct₂₀₁₇/kWh_{PTL})

Figure 21

Source: PV; interest rate: 6%

Note: 0% – only fossil fuel; 100% – only synthetic fuel

* Costs for generating liquid fuels (final energy, without levies/taxes)
