Agora Industry (2023) based on own analysis and IEA (2023). Note: For this comparison, clean technologies were selected that are at the beginning of a potential S-technology adoption curve. 2030 Tech Mix = Technology Mix scenario for the steel sector. IEA NZE = IEA Net Zero Emissions scenario based on IEA (2023). The range for the 2030 IEA NZE targets indicates some residual capacity to accommodate for potential demand fluctuations.
