

# Agora Industry country-specific fallback cement label

→ Fig. 12

Example 1: Country-specific fallback option  
with clinker factor of 1  
[E threshold at 750 kg CO<sub>2</sub>e/t cement]

Example 2: Country-specific fallback option  
with clinker factor of 0.8  
[E threshold at 648 kg CO<sub>2</sub>e/t cement]

- Emissions performance G
- Emissions performance F
- Low emissions E
- Low emissions D
- Low emissions C
- Low emissions B
- Low emissions A
- Near zero
- Net zero (0 kg CO<sub>2</sub>e/t)
