

# Energy carrier price comparison and efficiency potential of the technologies

→ Fig. 3

[Electricity/gas and CO<sub>2</sub> price ratio]

Fraunhofer ISI (2025); \*gas price + ETS1; LTHP = Low-temperature heat pump, HTHP = High-temperature heat pump, VHTHP = Very-high-temperature heat pump, CHP = Combined heat and power; Note: Energy carrier and CO<sub>2</sub> price pathways reflect assumptions from Annex 1, Table 5
